

KESHAVARAPU SATHISH KUMAR

Java Developer

+91-7036543630 | sathishsathi7780@gmail.com | [Linkedin](#) | Hyderabad

Java Developer with 3+ years of experience in designing, developing and deploying enterprise-grade applications using Java, Spring Boot, Oracle SQL and related technologies. Proven expertise in backend architecture, secure messaging systems (IBM MQ) and test-driven development. Strong focus on modular design, error handling and production readiness. Experienced in Agile methodologies and the Software Development Life Cycle (SDLC), with a proven ability to collaborate across teams and deliver secure, high-quality software solutions that meet business needs.

Skills

- | | | |
|-------------------|-------------------|---------------|
| • Java | • Apache Maven | • Spring boot |
| • Oracle SQL | • Hibernate | • React-JS |
| • Spring Data JPA | • Spring Security | • JUNIT |

Experience

Tata Consultancy Services

August 2022 – Present

Java Developer

Hyderabad, Telangana

Project: IFTAS (Indian Financial Technology & Allied Services)

Role: Java Developer

Project Description:

Structured Financial Messaging System (SFMS) is a secure common messaging system designed to facilitate both Intra & Interbank financial/non-financial messaging. SFMS is primarily used for financial message transfer in National Electronic Fund Transfer (NEFT) and Real Time Gross Settlement (RTGS), ensuring a standardized format for seamless transactions. Additionally, it supports non-financial messages like Letter of Credit (LC) and Bank Guarantee (BG), enhancing banking security and efficiency.

Responsibilities:

- Developed and maintained scalable backend services using **Java 8, 17** and **Spring Boot**.
- Developed frontend components using **React.js** for SFMS Application. Integrated React UI with **Spring Boot REST APIs** and implemented role-based access using JWT. Built reusable components and optimized UI performance for high-volume financial data.

- Decomposed monolithic applications into modular **microservices** to improve scalability, fault isolation and deployment agility. Integrated microservices with Oracle databases using **Spring Data JPA** and **Hibernate**, ensuring transactional consistency. Applied circuit breaker patterns using **Resilience4j** to enhance **fault tolerance** and **service resilience**.
- Integrated **Oracle SQL** and **Hibernate** for efficient data access and persistence. Tuned Oracle SQL queries and indexes for performance gains in large-scale transactional datasets.
- Implemented **asynchronous processing** using **JMS** and **IBM MQ** to handle high-volume message queues reliably.
- Wrote unit and integration tests using **JUnit** to ensure code reliability.
- Participated in code reviews, performance tuning and deployment automation.
- Designed and optimized **RESTful APIs** for financial transaction workflows, ensuring high throughput and low latency.
- Designed and executed end-to-end **process-level test cases** to validate financial transaction flows (NEFT/RTGS).
- Collaborated with cross-functional teams to align backend logic with domain-specific rules (e.g., **NEFT/RTGS** standards).
- Integrated **role-based access control** with **Spring Security** and **JWT**.
- Documented backend architecture, API contracts and integration flows for internal and client-facing teams.

Technical Skills

Primary skills	: Java, Spring Boot
Secondary skills	: HTML5, CSS3, JavaScript, React-js
Database	: Oracle SQL
Messaging	: IBM MQ
Frameworks	: Spring Boot, Hibernate, Spring Security, Spring data JPA
Version Control	: Git
Testing	: JUnit
Tools	: Spring Tool Suite, Burp Suite, Postman, Maven

Achievements

- Received star of the month award, service and commitment award, Best Team award and Elevate wings award from TCS.
- Cleared Elevate wings digital examination from TCS.

Education

Anurag Engineering College	2018 – 2022
<i>Bachelor of Technology - Computer Science and Engineering</i>	<i>Kodad, Telangana</i>
SR Junior College	2016 - 2018
<i>Board of Intermediate Education - MPC</i>	<i>Hyderabad, Telangana</i>
